

03/30/2009. This fact sheet was developed for the Port Sector. The following information was extracted from the Multi Sector General Permit (MSGP) for industrial storm water permit holders. This information is intended for clarification purposes. You must refer to your MSGP or individual permit for further clarifications.

When Can I Terminate Coverage under the Multi Sector General Permit?

Notice of Termination

A Notice of Termination (NOT) must be submitted to the permitting authority within 30 days after one or more of the following take place:

- A new owner or operator has assumed responsibility for the facility
- You have ceased operations at the facility and there are no longer discharges of storm water associated with industrial activity
- You have already implemented necessary sediment and erosion controls as required

No Exposure

If you are covered by the MSGP and later realize there are no longer discharge of storm water associated with industrial activity,
