

The following is a partial list of Part 364-permitted waste transporters from New York State Department of Environmental Conservation (NYSDEC)'s database. Inclusion on this list does not constitute approval or endorsement of that facility by NYS Environmental Facilities Corporation, or provide any assurance with regard to the quality of services provided or the transporter's environmental compliance history. Please be sure to verify the permit status of the transporter you choose as this list does not ensure the permit is current. Also note that not all listed transporters provide service to small businesses. Many transporters service all of New York State regardless of where their central office is located, including those located outside of New York.

Permit	Permittee Name	Phone	# of Vehicles	Waste Type	
RI-018	21st CENTURY ENVIRONMENTAL MANAGEMENT; INC. OF RHODE ISLAND	(401) 781-6340	10	Hazardous Waste	Used Oil
